PROFILE

With 2 years of experience, I specialize in building high-quality cross-platform applications for Web, Android, iOS, and Windows. My solutions have driven measurable growth in user engagement and retention. Known for a collaborative mindset and strong work ethic, I consistently deliver projects on time in fast-paced, dynamic environments.

WORK EXPERIENCE

Miguel Sevener Innovations

2024- PRESENT

Project Name : Loan

Technologies : Flutter , Rest API, MongoDB, Node js

Description : ViluGenius is an all-in-one loan platform where users can apply, track approvals, manage repayments, and view insurance and tax details, while employees handle applications, repayments, policies, and compliance in a single, transparent interface.

Aroganam Technology Pvt Ltd

2023 - 2024

Project Name : Talkcee

Technologies : Flutter , Rest API, MongoDB, Node js

Description : Talkcee is a real-time voice call and chat app where male users can connect with female users for paid, meaningful interactions. Built with Node.js and MongoDB, it ensures secure, smooth, and scalable communication.

Project Name : Darshan Journey

Technologies : Flutter , Nodejs, Mysql, Rest API.

Description : Darshan Journey serves as a comprehensive platform, functioning as a Wikipedia of temples. Users can search for temples based on the deity, pariharam, and festival ways. Additionally, users can book yatras, rooms, and iyers online through our portal.

Project Name : Bhagavad Gita

Technologies : Flutter , Rest API, Node js

Description : The Bhagavad Gita Slogan Learning project aims to provide a comprehensive platform for individuals to learn and understand the key slogans (verses) of the Bhagavad Gita in an engaging and accessible manner. The project will utilize audio and video formats to enhance the learning experience and cater to different learning preferences.
